**International Handbook on Education in Southeast Asia** Lorraine Pe Symaco 2021-12-23 This International Handbook provides a detailed account of the education systems of 11 Southeast Asian nations, including Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic, Malaysia, Myanmar, the Philippines, Singapore, Thailand, Timor-Leste, and Vietnam. It presents a systematic sector-by-sector explanation of how these national education systems deliver educational services and respond to national and international issues and challenges. With 56 chapters, the International Handbook is the region's most comprehensive educational reference source. In the first of its chapters, the editors introduce the regional context and draw attention to the distinctive characteristics of each of the 11 systems. Southeast Asia, representing 8.5% of the world's population, is as dynamic as it is diverse. The International Handbook charts progress and establishes a benchmark for documenting future developments. It also provides a stepping-off point for more detailed investigations of decision-making processes and outcomes across the 11 national education systems.

**Work and Pay in Japan** Robert A. Hart 1999-08-05 This book provides a comprehensive overview of Japanese labour market institutions and practices with respect to employment issues and labour payments. It contains extensive discussion of the effects of industrial relations, small business activity, business cycles and schooling on work and pay. An early chapter is devoted to presenting, in an accessible manner, essential labour market ideas and concepts that recur throughout the text. Important topics covered include (i) unions and wage determination, (ii) the breakdown of total labour costs, (iii) the Japanese bonus system, (iv) the employment life-cycle, (v) small businesses and subcontracting, (vi) pay and productivity over the business cycle. A key feature is that subject areas and themes are examined within a comparative United States/European framework. This allows assessments of whether or not the structure and performance of the Japanese labour market has differed from experience elsewhere.

**DE-IDEOLOGIZING INDIA: Modi and His Men At Work**

R.Sreekantan Nair 2025-09-02 Politics ,being an organic process ,reflects exactly what is put in to it .In India's democratic trajectory this turns out to be true and the recent revelations of the global democratic whistle-blowers was really a shock to the Indian political leadership ,who made a bee line to rectify the mistakes in in closed door .On the other ,hand the Indian public was quiet passive who witnessed to the developments over the last decade. Infact, it was the historic fall and decline of the INC,which led to the rise of Hindutva right -wing faction which finally led to the rise of Modi to power. Victorious Modi repeated his political journey in 2019 and 2024, where by there was overt and covert ways of de-railing the constitutional values and democratic institutions.Surprisingly, all progressive forces,intellectuals academics and press were suppressed along with the hijacking of civil society groups and organisations. It was the period when Rahul Gandhi made his Bharat jodo yatra.Though the move could limit BJP' s wild dream of 400+ seats,beyond that subsequently, he failed to deliver anything constructively to hold Prime Minister Modi from his frantic drive. With in his coalition ,Modi is engaged himself with the mission of de - ideologising India,a mission to erase national history,heroes and reject the very idea of India.In this juncture ,how to set the house in order and regain India's liberal and secular fabrics back to its normalcy? The political experience of the civil society ,progressive forces and intellectuals ,along with the larger opposition parties can unitedly defeat the foes of democracy and freedom.
