Hands-On History--Ancient Rome Garth Sundem 2014-01-01 Make studying history fun and interactive to motivate your students. Encourage teamwork, creativity, reflection, and decision making. Take an active approach to teaching while inspiring your students to make their own explorations of ancient history.

Creative Thinking and Arts-based Learning Joan P. Isenberg 2006 "Creative Thinking and Arts-Based Learning" prepares preservice and inservice teachers to "know why" children's creative thinking and play are so important, "know about" children's play and creative thinking, and also "know how" to provide these experiences within the curriculum. It contains extensive coverage of the roles, responsibilities, and strategies that lead to a more child-centered, play-based curriculum. An Applied Approach Many instructional guidelines and classroom strategies are presented throughout the text for integrating creative thinking and play into learning. Cases about preschoolers, K-2nd graders, and 3rd-4th graders open each chapter and show readers how teachers infuse the arts into learning. Meeting Standards. This new feature discusses how to provide for creativity in classrooms while also meeting state and national standards. Frequently Asked Questions. Another new feature poses common questions about issues, such as what materials and resources to use, how to adapt environments for diverse learners, and how to foster and assess creative thought. Misconceptions are dispelled with research-based answers. A Theoretical Approach Solid theory underlies all of the content. The authors' experience as university professors and practitioners is evident in their clear presentation of relevant theory. A Reflective Approach Teacher's Reflections in each chapter tell readers what other preservice and inservice teachers are thinking and doing in their classrooms relative to their experiences with the arts.
