Writing Strategies for the Common Core Hillary Wolfe 2013-12-18 "Middle-school students must be able to write explanatory/informational, argument, and narrative genre pieces and respond to literature, both for standardized tests and, more importantly, real-world writing. With a balanced literacy approach, Wolfe provides core instruction, teaching strategies, and mini-lessons on these text types, each of which can be delivered in a four- to six-week time period. Each mini-lesson includes applicable Common Core Standards, materials lists, overviews, planning tips, procedures (including modeling, guided practice, and independent practice opportunities), reading connections, formative assessments, and reproducible graphic organizers for scaffolding. Prerequisite skill overviews and rubrics—both analytic for formative assessments and holistic for summative assessments—are also provided for each genre unit to simplify your teaching and ensure student success."

A facilitator's guide for Farmer Field Schools in Solomon Islands Joshi, R.C.; Pitakia, T.; Mondovi, S.; Ketelaar, J. 2025-11-24 The Solomon Islands' agricultural sector holds significant potential to drive economic growth and national food security. By addressing current challenges and leveraging available opportunities, the country can transform its agricultural sector into a powerful engine for development. This guide was commissioned by the Food and Agriculture Organization of the United Nations (FAO) under the Capacity Building Related to Multilateral Environmental Agreements in African, Caribbean and Pacific Countries Phase III programme (ACP MEAs 3), funded by the European Union. As part of ACP MEAs 3, field activities were carried out in the Solomon Islands to mainstream biodiversity into the agricultural sector. At the heart of this guide is the Farmer Field Schools (FFSs) approach a participatory method where farmers engage directly in experimenting with new techniques, analysing results and sharing experiences with peers in their fields. This comprehensive guide, the first of its kind in the Pacific region, equips facilitators in Solomon Islands to conduct impactful FFSs focused on Integrated Pest Management (IPM) practices. It is designed for empowering extension staff, non-governmental organization (NGO) personnel and experienced farmers to become skilled facilitators. The guide goes beyond a simple curriculum, offering a detailed framework for planning, implementing, evaluating and even following up on FFS programmes.
