Exploring America's Past Holt Rinehart & Winston 1998

Tasks for Independent Language Learning David Gardner 1996 The guide contains ideas for independent language learning tasks, written for teachers by teachers from secondary and higher education institutions around the world. The tasks described serve as guidelines for creating varied activities for learners and for setting up ways for learners to take control of their own learning by determining how to complete the task, monitoring how well they perform, and deciding what to do next. Activities to suit all learning levels and to accommodate both learners of English as a second language and learners of English for special purposes are included, and the activities make use of a variety of resources. Most tasks consist of two parts: an explanation of the task; and sample worksheets. The tasks are divided into nine chapters that explore developing the following skills: (1) learning; (2) reading; (3) writing; (4) listening; (5) speaking; (6) vocabulary; (7) grammar; (8) body language; and (9) self-assessment. Microsoft Excel 2002 Yvonne Johnson 2001-12 "The Select Series" Microsoft® Office XP Select's easy to follow, step-by-step approach lays the groundwork for students to have early success with "Office XP" and to gain the confidence they need to apply their skills to text projects and cases, as well as to everyday work challenges! The Practical Running Case and the clear instructions guide students to mastering "Office XP" in the classroom and beyond! Select is certified to the Core and Expert levels, giving students the full range of competencies in "Office XP!" *Teaching Library Skills in Middle and High School* Linda J. Garrett 1993 This is a practical compendium of sample plans that correlates with Loertscher's resource-based teaching. Part I deals with library skills such as location and arrangement, indexing systems, study and research aids, and reference tools. Part II focuses on resource-based instruction by general subject groups, such as humanities, social studies, science, and vocational education.

Social Decision Making, Social Problem Solving Maurice J. Elias 2005 "Developed over three decades of implementation in a wide range of schools, this research-validated curriculum focuses on teaching students to be reflective, nonimpulsive, and responsible decision makers and problem solvers - while emphasizing essential literacy skills. It is ideal for classroom use and can be adapted for small group settings." "The program uses a variety of cooperative learning methods, including small-group brainstorming, problem solving, and role-playing activities. Students learn skills such as self-control, listening, respectful communication, giving and receiving help, and working cooperatively and fairly in groups. The manual includes numerous reproducible worksheets."--BOOK JACKET.

AI-Mediated Language Education in the Metaverse Era Yu-Ju Lan 2025-10-13 This book provides open discussions and dialogues around the latest research and development on applying AI and ubiquitous technologies into various language learning contexts. Living in the Metaverse era, arguably a turning point in the evolution of the Internet, it is vital for researchers and practitioners to rethink and reconsider human and AI relationships in transforming the way we teach, learn, and live in everyday life. Reinders et al. (2022) amongst Computer Assisted Language Learning (CALL) researchers have emphasised the need to conduct more research on language learning in the classroom and beyond that makes real connections with what language learners do for their learning today. More importantly, language educators must find ways to support language learning in this new era. What is urgently needed is a consolidation and synthesis of theoretical foundations, visions and the latest research findings and practices on the integration of AI and ubiquitous technologies and language education from diverse perspectives. This book, comprising of contributions regarding contextualised AI-mediated language learning and teaching, provides researchers, practitioners, and teacher educators with an opportunity to closely engage in research-informed practices and intellectual dialogues on potential opportunities and challenges in the Metaverse era. It also helps to facilitate the development of equitable, sustainable, and just practices for the diversity of language learners today.
