Career Directions: The Path to Your Ideal Career Donna Yena 2011

Career Directions: The Path to Your Ideal Career, provides diverse job seekers with the essential resources and techniques to develop a career plan, conduct a successful job search, and succeed in a diverse workplace. Whether your students are seeking an internship or co-op job, first position after graduation, or a career transition, Career Directions will prepare students to stand out in the changing workplace! Students in career schools, colleges, community colleges, and universities can all benefit from using this book in career development courses and career workshops. Career Directions can also be used independently for those who want to direct their own career planning and job search efforts. With over 30 years of experience in career development and human resources, Donna Yena brings a practitioner's perspective to Career Directions. Her experience as Vice President of Career Development and Alumni Relations at Johnson & Wales University, along with her background as a manager, instructor, and curriculum designer, contribute to the advice and techniques offered in this text. More than just a text on job searches and career planning, Career Directions provides instruction and resource materials that will help you find your internship or co-op job, first position after graduation, or guide you through a career transition.

Counseling, Psychology, and Children William G. Wagner 2008 The

second edition of "Counseling, Psychology, and Children "takes a multidimensional four-part approach to counseling children. This approach: 1) capitalizes on the relationships children build with parents, teachers, and other adults; 2) looks at children's developmental processes; 3) examines multicultural influences upon them; and 4) takes into consideration the variety of intervention models available. Four chapters examine four major approaches to child therapy: psychodynamic, child-centered, behavioral/cognitive-behavioral, and family systems. In the final synthesizing chapter, the author draws upon his experience as therapist "and" teacher to bring everything together through a case study that shows his multidimensional approach in action. This book covers the use of play as a therapeutic technique and emphasizes thinking outside the box of standard therapy. It encourages future counselors to view treatment as the culmination of education/developmental, preventive, and remedial interventions. For professionals in the field of counseling children.

Career Focus Helene Martucci Lamarre 1998 This straightforward, no-nonsense revision of author Helene Lamarre's text is a comprehensive guide to successful job searching. Career Focus, Second Edition, covers a wide range of topics from self-assessment to using the Internet in a job search while focusing on specific skills such as resume writing and researching companies. It details interviewing techniques and creating professional portfolios.

College Grad Job Hunter Brian D. Krueger 1995 College students want the facts. They don't want to know how job-hunting used to be done, or how to get a job if you've been downsized. They want to know how to downplay a lack of work experience (or the summer they spent flipping burgers), how to get references from professors, how to succeed at job fairs, and how to negotiate a decent salary. This book is packed with over

200 different techniques and tactics, any one of which will make a significant impact on a job search. There are many new and fresh ideas that can be put into immediate action. No theory. No philosophy. Just down to earth information a college grad can use immediately in their job search.

Suggestions for the Applicant Michael Griffith 2011-10-03 This book is intended to be simple and to the point. There are examples for every suggestion in this book. This is not intended to be an in-depth study of every issue you will encounter while searching for a job and going through the interview process. I do not believe that the average job seeker is concerned with this. I believe the average job seeker wants to know what to do, how to do it, what not to do, and how to avoid it. This book is titled "Suggestions" for these reasons. These are simple suggestions for anyone seeking a job. My hope in writing this book is to enable you to be strategic and effective in obtaining meaningful employment.
