What Species of Creatures Sharon Kirsch 2008 The Europeans who colonized North America more than three centuries ago encountered fantastical creatures: flying squirrels, ruby-throated hummingbirds, the easily tamed beaver. Their literature of discovery -- by turns comic, cruel, and adulatory -- provides a revealing glimpse of the taxonomies they carried with them into their so-called New World. Sharon Kirsch weaves early settler accounts, fables, children's stories, natural histories and 21st century science in a quirky narrative that probes our complicated relationship with the other creatures that share the planet. Illustrated with twenty period drawings, and peppered with verbatim accounts by these early settlers, *What Species of Creatures* is a rich and satisfying stew of odd historical facts and figures. "Fascinating . . . Kirsch skillfully stitches together this scattered survey of European testimony and observations about encounters with New World animals with very challenging but rich prose . . . With so few books in early Canadian history on the subject of human-animal relations, however, Kirsch's work is a very welcome contribution that should open the door for other scholars and writers to pursue this kind of research." -- Sean Kheraj, H-Net / Humanities and Social Sciences On-Line "Offers unexpected surprises in each chapter on almost every page . . . This book is like no other I know, an imaginative assemblage of intriguing material on human and animal lives, woven together seamlessly to create mysterious tales. Sharon Kirsch has produced a unique, scholarly, and engaging chronicle of the early encounters between Europeans and the New World animals." -- Lynette Hart, Anthrozoos

Crude Creatures Gil Ribak 2025-10-28 Corrects the record on how Yiddish media portrayed African Americans Understandings of Black-Jewish relations have been notable for the near consensus among scholars that the Yiddish press repeatedly condemned discrimination and prejudice against African Americans, and highlighted the similarities between the situation of Jews in Eastern Europe and Blacks in America. This book argues that this view covers just a sliver of the varied representations of Black women and men. East European Jewish culture during the immigration era was not uniformly supportive of Black Americans as those interpretations suggest. *Crude Creatures* draws on a mixture of previously unexplored Yiddish press, theatre, and literature from Eastern Europe and the United States through 1929 to examine how Black Africans and African Americans were depicted. It charts a significant gap between the sincere condemnation of lynching, violence against Black Americans, and racial segregation on the one hand, and the ways in which Jewish authors, newspapers, playwrights, actors, and theater managers actually represented Black people on the other. While most East European Jews would not have seen a Black person before their arrival in America, they had already acquired preconceived imagery of Black people through rabbinic exegesis, pious advice, travel narratives (either original or adapted from other languages), folklore, scientific explorations, pulp literature, press reports, political rhetoric, and educational materials. Thus, Yiddish writers commonly described Black people as cannibals, oversexed, prone to violence, childlike, or just happy-go-lucky people. *Crude Creatures* provides a critical revision, correcting the accepted rosy narrative of Black women and men's portrayals in Yiddish culture, and highlighting what we can learn from these representations about how immigrant groups integrated their own cultures into American racial hierarchy and vocabulary.

Revealing Male Bodies Nancy Tuana 2002 Revealing Male Bodies is the first scholarly collection to directly confront male lived experience. There has been an explosion of work in men's studies, masculinity issues, and male sexuality, in addition to a growing literature exploring female embodiment. Missing from the current literature, however, is a sustained analysis of the phenomenology of male-gendered bodies. Revealing Male Bodies addresses this omission by examining how male bodies are physically and experientially constituted by the economic, theoretical, and social practices in which men are immersed. Contributors include Susan Bordo, William Cowling, Terry Goldie, Maurice Hamington, Don Ihde, Greg Johnson, Bj'rn Krondorfer, Alphonso Lingis, Patrick McGann, Paul McIlvenny, Terrance MacMullan, Jim Perkinson, Steven P. Schacht, Richard Schmitt, Nancy Tuana, Craig L. Wilkins, and John Zuern.

Encounter Between Eastern Orthodoxy and Radical Orthodoxy Dr Adrian Pabst 2013-05-28 This book presents the first debate between the contemporary movement Radical Orthodoxy and Eastern Orthodox theologians. Leading international scholars offer new insights and reflections on a wide range of contemporary issues from a specifically theological and philosophical perspective. The ancient notion of divine Wisdom (Sophia) serves as a common point of reference in this encounter. Both Radical and Eastern Orthodoxy agree that the transfiguration of the world through the Word is at the very centre of the Christian faith. The book explores how this process of transformation can be envisaged with regard to epistemological, ontological, aesthetical, ecclesiological and political questions. Contributors to this volume include Rowan Williams, John Milbank, Antoine Arjakovsky, Michael Northcott, Nicholas Loudovikos, Andrew Louth and Catherine Pickstock.
