**Supervisory Management** Robert C. Lowery 1985 Abstract: Key, practical, effective management techniques are reviewed and discussed in detail for first-line supervisors. Emphasis is placed on developing a functional knowledge and understanding of how to supervise people and to manage facilities, money resources, computers, information, and time. Topics include the various challenges and responsibilities of supervision; the basics of planning, organizing, directing, and controlling; interpersonal relations (including communications, humanism, direct personnel supervision, sensitive personnel problems, and developing a leadership aura); techniques for supervision in and of the workplace (productivity enhancement, money resources, computers, information management); time management; and the importance of maintaining proper attitudes and ethics for success. Case studies and illustrations are presented throughout the text and a glossary is appended. (wz).
