Pet Care Trust quality assurance standard for pet

retailers Pet Care Trust

2009-06-16 The Pet Care Trust Quality Assurance Standard for

Pet Retailers is a new retail

standard for the inspection of pet retailers. It sets out agreed levels of good practice.

Participating retailers are independently inspected by the

specially trained and qualified staff from SAI Global - one of

the largest inspection and certification bodies in the

world. This is the first

publication in a planned series of standards to apply to a

range of pet care specialists.

This Quality Assurance

Standard for Pet Retailers

introduces a common standard for inspection that all pet

retailers can follow. It is

important both for retailers

who sell pets and for those who sell just pet food and

accessories and want to prove that their staff training,

knowledge and systems are the

best. The application of assessment criteria by a third party, in this case SAI Global, benefits the general public, businesses and any animals concerned as it provides the assurance of a shared standard against which retailers are inspected. The Quality Assurance Standards for Pet Retailers will give the pet-owning public reassurance about the health and welfare of the animals and about the specialist knowledge of the approved retailer. This inspection standard has been developed by the Pet Care Trust's Animal Welfare Advisory Group which is made up of pet industry experts and includes a vet, zoologist, small animal breeders, a solicitor versed in animal welfare issues and pet retailers. On the fish section the Pet Care Trust also worked closely with the Ornamental Aquatics Trade Association (OATA).
