Learning in Three Worlds T. Marguerite McClain 1998 Author's abstract: This study explores the complexities in the lives of three young boys, seeking the learner's perspective in support of creating more learner-centered educative experiences. For a year, I followed the Torres boys--Hugo, nine-years-old, and his four-year-old twin brothers Paco and Pedro--at school, at home, and in a community-based ethnic dance group which their parents direct. This ethnographic study is based largely on observations of the children in the three settings, constructing portraits of the three boys that bring to life their personalities exuberance, strengths and struggles.
