So What's the Difference Fritz Ridenour 2001-03-02 Completely revised and updated for the postmodern age, *So What's the Difference?* gives you easy-to-understand, nonjudgmental answers to the question, "How does orthodox biblical Christianity differ from other faiths?" Here Fritz Ridenour explains the basic tenets of Protestantism, Roman Catholicism, Eastern Orthodoxy, Judaism, Islam, Hinduism, Buddhism, Jehovah's Witnesses, Christian Science, New Age, Mormonism, and other religions and belief systems of the world. You will also learn why relative thinking--the idea that there is no objective, absolute truth--has become the predominant mindset in our culture, and how you can respond. This bestselling guide will help you recognize the real differences between the Christian faith and other viewpoints and make it easier for you to explain and share your faith with others.

The World of Shamanism Roger N. Walsh 2007 This objective exploration of shamanism and its place in contemporary life leaves no stone unturned as Dr. Walsh examines shamanistic traditions throughout history, and how they intersect with modern psychology and metaphysical studies.

Spirit in Action Irene Lamberti 2000 Movement is spirit in action and has been a vital part of sacred rituals in virtually every culture. Combining physical movement with prayer is an increasingly popular spiritual discipline, seen most often in the growing practices of yoga, t'ai chi, and qigong. "Spirit In Action" is a new discipline, a gentler Tae-Bo "TM" for the soul. "Spirit In Action" was developed into an expanded spiritual teaching from The Aerobic Prayer "TM" video series, a "hot new fitness trend", says the NAPRA NetWorker, which concentrates on exercise routines. The embodied prayers in the book incorporate dance

steps and forms of physical worship that have traditionally been used to summon divine energies in many different cultures, including African, Brazilian, Polynesian, Cuban, Celtic, Mideastern, Far Eastern, and Native American. Illustrated with step-by-step photographs throughout, Dr. Lamberti's moving meditations can be used to promote relaxation and a sense of well-being, give thanks and bestow blessings, enhance a connection to the divine, and increase concentration, patience, compassion, courage, and other kinds of energy.

Weird Water and Fuzzy Logic Martin Gardner 1996-10-01 At a time when popular knowledge of basic science has sunk to a new low and books promoting angels, parapsychology, and bizarre forms of medicine and healing outnumber skeptical books by more than a thousand to one, Americans need a voice of sanity. *Weird Water and Fuzzy Logic* introduces readers to mind-wrenching probability paradoxes, recent attacks on the Big Bang Theory, and Marianne Williamson's success promoting *The Course of Miracles*, which is said to have been channeled by Jesus. Other columns address E-prime, a language that omits all forms of the verb "to be"; Norman Vincent Peale's beliefs in the paranormal; repressed memory therapy; science blunders by famous writers; the influence of Transcendental Meditation on the career of Doug Henning; a critique of "Klingon" and other artificial languages; and much more.

Integrative Medicine Kathleen Phalen 2012-02-21 *Integrative Medicine* seamlessly blends Eastern and Western medical traditions into an informative and readable resource. Author, Kathleen Phelan brings her skills as an investigative reporter and her experience as a medical writer to bear in a tour de force-part history. part story. part resource- for any reader seriously interested in his or her own well-being and in the future

of medicine and medical treatment in this country Once considered "alternative; Eastern medicine has gained widespread acceptance by the general public, but it is the blending (or integration) of Eastern healing with Western medicine that is now commanding the attention of the medical community. Dating the birth of integrative medicine to 1971, when James Reston brought the concept of acupuncture and Chinese herbs to America's shores, Phelan traces a movement that's grown into a \$15 billion dollar industry in a generation . Through interviews with Eastern and Western practitioners and their clients, she puts a human face on the "crisis" of medical care in our time. With extensive detail, she recounts the history of both Eastern and Western medicine, presenting the best-and sometimes exposing the myths-of both ancient cures and current high-tech methods.

Wellness East & West Kathleen F. Phalen 2012-10-23 In *Wellness East & West: Achieving Optimum Health through Integrative Medicine*, Kathleen F. Phalen explores the blending of the most effective aspects of medical practices from both sides of the globe. And it is not in curing but rather in healing discovered through integrating these polar medical practices that leads those suffering to a more peaceful place, a place where the heart is healed. Phalen gives us case studies on survivors of AIDS and ovarian cancer. Yoga, guided imagery, and meditation are combined with a daily dose of medication or a weekly session of chemotherapy to provide healing beyond what western medicine alone can offer. Kathleen masterfully joins the hemispheres by revealing the herbs and diet to easy everything from the common cold to cancer. Practical as well as informative, Phalen urges us to be active participants in our own health care. Here you can learn how to take your superficial and deep pulse to discover the efficiency of your organs. To gain further

insight into your condition, read the color of your tongue. Most importantly, return to the basics of looking, listening and feeling to lead you and your physician to diagnosis and treatment.

Pathways to God Dr. Robert Newton 2012-04-09 Many people profess a belief in the existence of God, but very few of us are aware of the biofeedback mechanisms in the body that allow us to verify and experience our Creator. Dr. Newton systematically takes us through self-induced methods of experiencing God through mental and vocal practices: subliminal and neuro-linguistic programming; toning, singing, and chanting mantras; color therapy; breathing techniques; postures and movements; energy vortexes; experiencing nature and endorphins Dr. Newton reveals devices and objects that magnify your connection to the Creator including: Pyramids, crystals and gemstones Magnets and precious metals Lasers and psychotronic devices Brain entrainment devices All of these cause bodily relaxation which reveal the presence of God through electromagnetic phenomena. This book is especially valuable for energy/crystal healers.
