Decoding the Secret Language of Your Body Martin Rush 1994-12 Itchy palms...cold feet...a pain in the neck. Not a day goes by that our bodies don't "speak" to us through tickles and tingles, belches and bellyaches -- and psychiatrist Martin Rush takes us on an entertaining, enlightening exploration as he teaches us how to decode these secret signs and signals. Rush reasons that many of the twitches and twinges we experience may have psychological roots, rather than physical ones. The runny nose, lower backache, and cough signify some underlying wants or needs that the body is trying to convey. Because we aren't always aware of our feelings, the sudden symptom may be a

physiological way of drawing our attention to an unnoticed emotion. By recognizing these signals, and then deciphering them, we can better understand the meanings in our aches, pains, and other symptoms. So, if you're itching to know why you have sudden chronic sneezing attacks, or why your eyelid occasionally twitches uncontrollably, or what is behind that unexplainable rash, then perhaps it's time for a visit with Dr. Rush. The quintessential example of the mind-body connection, *Decoding The Secret Language of Your Body* makes everyone aware of even the most subtle interaction between feelings and body responses.
