South-Western Microsoft Office 2000 Curriculum Guide Reidel

1999-05-28 This Curriculum Guide is a supplementary instructional tool designed for users of South-Western texts about Microsoft Office 2000. This guide provides all the information necessary for a complete curriculum for this popular suite of applications. Different areas covered include Word, Excel, Access, PowerPoint, Outlook, FrontPage, and Publisher. Three different series are covered as curriculums: South-

Western series, QuickTorial series, and the Napier and Judd series. Users will also find the basic facts about Microsoft Office User Specialist (MOUS) certification.

**Developing the Curriculum**

Peter F. Oliva 2005 This highly readable, practical text guides students step-by-step through the process of curriculum development, providing a solid foundation of key models and concepts. "Developing the Curriculum, Sixth Edition, " is full of references to classic and current curriculum writings, providing students with a synthesis of historic and contemporary principles and practices associated with creating an effective curriculum. In addition, the author introduces a model that combines curriculum and

instruction and carefully explores issues and challenges at each stage. Features: Up-to-date coverage reflects today's best practices and current trends in current development. Actual examples are interspersed throughout each chapter to reinforce major chapter content. Each chapter contains objectives, Website and media references, end-of-chapter questions as well as supplementary exercises, providing students the opportunity to critically analyze and review key concepts and strategies. Extensive bibliographies enable students to conduct research on chapter topics. Chapter 15, Issues in Curriculum Development, provides clear and concise analyses accompanied by an easy-to-use bibliography. An Appendix provides teachers with references to ERIC Clearinghouses, Regional Educational Laboratories, National Research and Development Centers, Institute of Education Sciences, and curriculum journals. Peter F. Oliva, formerly professor and

chairperson at Southern Illinois University, Florida International University, and Georgia Southern University, is author of several textbooks. He has taught in high school and at the Universities of Florida, Hawaii, Mississippi, and Indiana State University.

*Instructional Leadership*

*Handbook* James W. Keefe

1984 Instructional leadership

is the principal's role in providing direction, resources, and support to teachers and students for the improvement of teaching and learning in the school. This handbook reviews factors affecting that role in four broad domains: keeping informed about trends, planning for instructional improvement, implementing instructional improvements, and evaluating program success. The first section surveys the range of information with which principals must be familiar in

order to provide knowledgeable guidance, including trends in instruction in specific content areas, trends in organization and staffing, and trends in media and methods. The second section discusses the application of planning techniques to instructional development, touching on needs assessment, goal-setting, standards and competency measurement, and obtaining support. Program implementation is covered in the third section, which explores program organization and the supervision of classroom management, the diagnostic process, student placement, and instructional practices. The final section treats the elements of the evaluation process, including assessment and reporting of progress, evaluation of teacher performance, obtaining and using community feedback, and modifying the program. **Acquiring and Organizing Curriculum Materials** Gary Lare 1997-11-06 Acquiring and

Organizing Curriculum Materials addresses two areas of need in a curriculum materials center-where to find curriculum materials for acquisition and how to organize these materials for efficient and effective access once they are acquired. This book brings together, in one convenient source, many companies, associations, projects, and government agencies that publish, produce, and distribute curriculum materials such as curriculum guides, textbooks, teaching activities books, and AV media/instructional materials. Lare has also included a list of World Wide Web sites and links that provide teaching activities and lesson plans, curriculum guides and standards, and curriculum resource links which provide content to support lesson plans. Once the materials are acquired, various shelving options and classification schemes are presented so that informed decisions can be made regarding how to organize the various collections. A useful

resource for curriculum materials librarians in academic libraries, school library media specialists, public librarians responsible for education collections, and for library and information science courses in collection development and organization.
