RN's Study Guide Vicky Li  
2016-12-05 RN's Study Guide: Nursing Essentials is a unique and user-friendly resource that presents students with need to know information to help them thrive on their path to becoming a nurse. Unlike other texts, it condenses vast amounts of knowledge into manageable basics to help nursing students and professionals understand difficult material, prepare for rigorous tests, and provide optimal care for patients and their families. With a concise and practical approach, RN's Study Guide: Nursing Essentials offers simplified introductions to the major health problems of different systems with important nursing tips and explanations. Also included are useful medical terms, anatomic pointers, points to consider, and precautions.

*Adult Health Nursing* Barbara Lauritsen Christensen 2003 An ideal companion text to *Foundations of Nursing*, this clearly-written, colorful, and attractively-designed resource prepares the LPN/LVN for today's medical-surgical nursing practice. Content focuses on the nursing process and nursing actions, addressing contemporary issues that include care of the older adult, cultural considerations, delegation to unlicensed assistive personnel, patient/family teaching, and home/long-term care. Used together, these two texts provide all the content covered in the entire LPN/LVN curriculum. The nursing process is applied consistently and logically to the discussion of disorders and appears in complete summary form at the end of every chapter. Full-color

art, photography, and design add visual appeal to text content. An Overview of Anatomy and Physiology opens all body systems chapters. Objectives are divided into Anatomy & Physiology and Medical-Surgical categories. Nursing Care Plans are developed around specific case studies with an emphasis on patient goals, outcomes, and questions to promote critical thinking. Clinical Pathways reflect collaborative care. Assessment is separated out into Subjective and Objective Data. Nursing Diagnoses paired with disorder-appropriate Nursing Interventions are screened and highlighted in the text. Critical Thinking Questions are found at the end of every Nursing Care Plan. Therapeutic Dialogue boxes focus on communication through real-life examples of nurse-patient dialogue. Patient Teaching boxes examine discharge instructions and health promotion for patients and families. Home Health Considerations boxes discuss issues facing patients and

caregivers in the home care setting. Older Adult Considerations boxes bring a gerontologic perspective to the analysis of specific disorders. Cultural and Ethnic Considerations boxes teach students about specific cultural preferences and how to address the needs of cultural diversity when planning nursing care. Medications tables provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs.
