AFP Juan Ariztia 1998 Comprises a collection of 16 papers on the development of the social security system, based on individual capitalization, from its launching in 1981 until March 1990. Includes papers which discuss, inter alia, the three operation development areas which make up the system (the benefits, the financial management and the operational control) the transition from pay as you go to an individual saving system, the incorporation of the armed forces and police into the capitalized contributions system, and pension system reforms in other countries.

Handbook of Finance, Investment Management and Financial Management Frank J. Fabozzi 2008-08-04

Volume II: Investment Management and Financial Management focuses on the theories, decisions, and implementations aspects associated with both financial management and investment management. It discusses issues that dominate the financial management arena—capital structure, dividend policies, capital budgeting, and working capital—and highlights the essential elements of today's investment management environment, which include allocating funds across major asset classes and effectively dealing with equity and fixed income portfolios. Incorporating timely research and in-depth analysis, the Handbook of Finance is a comprehensive 3-Volume Set that covers both established and cutting-edge theories and developments in finance and investing. Other volumes in the set: Handbook of Finance Volume I: Financial Markets and Instruments and Handbook of Finance Volume III: Valuation, Financial Modeling, and Quantitative Tools.
