Topics covered include the types of unconventional cancer treatment most available to American citizens and how people access them; costs and means of payment; profiles of typical users of unconventional treatments; legal issues; and the potential for enhancing our knowledge about the efficacy and safety of these cancer treatments. OTA also examined a particular unconventional treatment, Immuno-Augmentative Therapy, and designed a clinical trial protocol to permit valid evidence of efficacy and safety to be gathered.

National Contract Management Association The CFCM Study Guide is designed to assist candidates in reading the FAR by summarizing each part and highlighting critical definitions and information. It is intended as a detailed study outline of the main topics within each FAR part and includes specific references. The 4th Edition is divided by FAR subchapters A-H. Each subchapter section contains a brief “at a glance” summary of the FAR parts contained in that subchapter followed by a more in-depth summary of each part. The CFCM Study Guide provides references to specific thresholds,

limitations, and requirements. Use the citations provided in the guide to find the most up-to-date thresholds in the FAR. This study guide has been updated to incorporate changes up to and including Federal Acquisition Circular 2021-06. As stated above, CFCM candidates are responsible for updates. Check National Contract Management's website for additional information about what is covered on the CFCM examination. The CFCM Study Guide comes with a full CFCM practice exam at the end of the book as well as an answer key to self-grade your responses. As noted, the questions on the practice exam may resemble those on the examination but were developed independently of the actual exam. Therefore, they are not the actual exam questions. Memorization of the practice exam questions and answers is not sufficient preparation for the examination.

This is an ALL IN ONE guide covering 3 exams: CCCM, CFCM and CPCM. This is the latest 2012 Edition. In the new CCCM exam syllabus, General Business Knowledge is no longer tested. HOWEVER, taking into account the fact that knowledge on the general business environment would help a lot in your exam study effort (even though the GB module is no longer required), GB related materials are retained in this study guide. Note that the CCCM exam does not cover FAR. Therefore, you may ignore the FAR section altogether. The focus is more on the UCC Articles 1, 2 and 2a and some general commercial contracting elements. If you are new to contract management, use this study guide TOGETHER WITH other sources of information to prepare for the exam. The exam is easy only if you are experienced in contract management. If you are not, then lots of readings would have to be done. For CFCM, FAR is definitely the focus. Still, knowledge on commercial acquisition and contract is essential as it forms the foundation of

modern contract management. You should therefore go through the sections on business procurement and commercial contracting in addition to studying FAR. Again, GB is not tested in the exam. As of the time of this writing, CCCM and CFCM exams have 150 questions per exam. The 110 question format is no longer in use. CPCM Candidates need to know both sides of contract management. Knowledge on commercial contract and FAR would be required. Also, some GB stuff will appear in this exam. As of the time of this writing, the CPCM exam has 179 questions. There are several scenario based MC sections. In this study product we have both contracting-specific and business knowledge sections. We label those business knowledge sections as “Foundation Knowledge” sections. These sections have information that is not on the technical aspect of contracting but is still relevant for day-to-day contract admin works. The Sept 2012 FAR revisions have been included in this edition.

Latest case laws are also covered.
