Encyclopedia of Global

Industries Diane M. Sawinski

1996 This one-stop directory

will quickly bring you and your

patrons up to speed on 115

vital international industries

through detailed, custom-

written articles. Encyclopedia

of Global Industries covers

industries with significant

global trade and

interdependence such as

automotive, apparel petroleum

and commercial fishing and

provides information that is

difficult to locate -- all in one

source. This title's extensive

coverage and useful blend of

industry overview and outlook

make it unique among

reference sources that

concentrate on international

industries. Encyclopedia of

Global Industries fills the

information gap between trade

journals that lack

comprehensive overviews and

international statistics which

form primary sources. With

this innovative reference you

can address your patrons'

specific international industry

research needs: -- Students

compiling information on

issues surrounding various

industries for reports or papers

-- Business professionals seeking international trade data -- Job seekers gathering industry statistics to prepare for interviews -- Attorneys collecting information for litigation -- Accounting consultants needing a fast, up-to-date overview of an industry -- Investors or commodity brokers researching the soundness of an industry -- Journalists looking for information for articles -- As well as many others Arranged alphabetically by industry, each entry covers a broad spectrum of topics about the industry: -- Size and economic/social impact of the industry -- How it is organized and how it functions -- History and development -- Major countries and companies involved in the industry, including rankings and marketshares -- Current economic outlook with projections -- Size and nature of the work force -- Research and technology within the industry -- A bibliography of sources for more information -- Other features include

statistics, graphs, tables and charts, as well as market share and trend data To help users find the information they need, several methods of access are available. Two table of contents arrange information: the first, alphabetically by broad industry categories with the industry titles below; the second lists all industry titles alphabetically. Four major indexes include: the general index, containing alphabetical references to all companies, associations, publications, and other key terms in the text; the geographic index, separated by industry within each country; the Harmonized System code index, which links the HS codes to corresponding SIC codes; and the industry index, organized by SIC code. Hot industries covered include -- Biotechnology -- Information retrieval services -- Computer and data processing industries -- Financial services and trading -- Instruments and related products -- Metal products and industries -- Printing and publishing -- Public services and utilities --
