From Empire to the World Malini Guha 2015-01-20 The study of globalization in cinema assumes many guises, from the exploration of global cinematic cities to the burgeoning 'world cinema turn' within film studies, which addresses the global nature of film production, exhibition and distribution. In this ambitious new study, Malini Guha draws together these two distinctly different ways of thinking about the cinema, interrogating representations of global London and Paris as migrant cinematic cities, featuring the arrival, settlement and departure of migrant figures from the decline of imperial rule to the global present. Drawing on a range of case studies from contemporary cinema, including the films of Michael Haneke, Claire Denis, Horace OvcY nd Stephen Frears, Guha also considers their world cinema status in light of their reconfiguration of established forms of filmmaking, from modernism to social realism. An illuminating analysis of London and Paris in world cinema from the vantage point of migrant mobilities, *From Empire to the World* explores the ramifications of this historical shift towards the global, one that pertains in equal measure to cityscapes, their representation as world cinema texts, and to the rise of world cinema discourse within film studies itself.

Booky Wook 2 Russell Brand 2010-10-12 Picking up where he left off in *My Booky Wook*, movie star and comedian Russell Brand details his rapid climb to fame and fortune in a shockingly candid, resolutely funny, and unbelievably electrifying tell-all: *Booky Wook 2*. Brand's performances in *Arthur*, *Get Him to the Greek*,

and *Forgetting Sarah Marshall* have earned him a place in fans' hearts; now, with a drop of Chelsea Handler's *Chelsea Chelsea Bang Bang*, a dash of Tommy Lee's *Dirt*, and a spoonful of Nikki Sixx's *The Heroin Diaries*, Brand goes all the way—exposing the mad genius behind the audacious comic we all know (or think we know) and love (or at least, lust).

The Disability Studies Reader Lennard J. Davis 2006 The second edition of "The Disability Studies Reader" builds and improves upon the classic first edition, which has sold well over 6000 copies since 1999. As a field, disability studies burst onto the scene across the social sciences and humanities in the 1990s, and the first edition of the reader gathered the best work that had been written on the subject, including essays by famous authors such as Susan Sontag and Erving Goffman. The new edition is more global in its coverage and adds material on genetic testing, the human genome, queer studies, and issues in developing countries. The size of the audience has grown since the first edition's publication, and the second edition's new material will make it even more useful for courses on the subject. Courses on the subject have mushroomed in the past ten years, and can now be found across the social sciences, humanities, and behavioral sciences.

New York 2004

Screening Strangers Yosefa Loshitzky 2010-03-08 Yosefa Loshitzky challenges the utopian notion of a post-national "New Europe" by focusing on the waves of migrants and refugees that some view as a potential threat to European identity, a concern heightened by the rhetoric of the war on terror, the London Underground bombings, and the riots in Paris's banlieues. Opening a cinematic window onto this struggle, Loshitzky determines patterns in the representation and negotiation of European identity in several European films from the late 20th and early 21st centuries, including Bernardo Bertolucci's *Besieged*, Stephen Frears's *Dirty Pretty Things*, Mathieu Kassovitz's *La Haine*, and Michael Winterbottom's *In This World*, *Code 46*, and *The Road to Guantanamo*.

The Ironic Filmmaking of Stephen Frears Lesley Brill 2018-02-22 Stephen Frears has a career approaching over half-a-century, directing films of astonishing variety, beauty, and daring, and yet many often have trouble remembering his name. *The Ironic Filmmaking of Stephen Frears* celebrates this great filmmaker, beginning with a short biography of Frears, general observations on unifying themes and styles in his oeuvre, and the characterization of his manner of directing. By focusing on 10 key films, Lesley Brill finds coherence in Frears' characteristic irony and in his concentration on many kinds of love. In movies such as *My Beautiful Laundrette*, *Dangerous Liaisons*, *High Fidelity*, *The Queen*, *Philomena*, and many others, Frears portrays widely varied situations and characters with a combination of insight, skepticism, and sympathy. He has the passionate, unjudgmental focus of an artist who stands simultaneously at a distance from his subjects and within their worlds. Through Frears' work is widely admired, Brill argues that he has attracted little scholarly writing because of a combination of the diffidence of his self-presentation and the difficulty of explicating the complex ideas and characters of his films. *The Ironic Filmmaking of Stephen Frears* is meant to inspire others to further examine his films individually and his career as a whole.
