2000-09 As the best-selling text in its market for more than thirty-five years, *Broadcasting in America* distinguishes itself by presenting electronic media both as products of contemporary social forces and as social forces in their own right. This text will introduce you to the exciting changes taking place in electronic media. It will help you examine the emerging information infrastructure and the accelerating convergence of various electronic media forms. It will also help you examine the role electronic media plays in many academic areas, ranging from economics to law, from history to social science. **The Murdoch Mission** Wendy Goldman Rohm 2002-03-12 A dramatic narrative by a top journalist about the transformation of one of the world's greatest media empires. The Murdoch Mission gets inside Rupert Murdoch's News Corp. and documents the media mogul's strategic forays in digital media and broadcasting and new Internet-based businesses. Among other giant highlights is the creation of his new \$40 billion company, the mammoth Sky Global Networks. Wendy Rohm provides an up-close look at how Murdoch's youngest son, James Murdoch, is changing his father's fortune in the megamarket of China and other world markets. She shows the impact these forays will have on international trade and the media world at large. Based on her personal

time with James in Hong Kong and Beijing, interviews with Rupert Murdoch himself as well as Murdoch's corporate officers, senior executives, colleagues, confidants, and competitors, Rohm provides a larger-than-life, colorful account of how one of the most powerful media lords on the planet leads his global corporation into the digital age. The Murdoch Mission delves into Murdoch's successes as well as his disasters while also providing a glimpse into the impact he and his company are having on the cultural and media landscape of the world. Wendy Goldman Rohm (Chicago, IL) is the bestselling author of *The Microsoft File*, a *Business Week*, *Barnes & Noble*, and *New York Times* bestseller. A prolific writer, she has been a correspondent for many publications, including *Wired* magazine, *Upside*, the *New York Times* *Syndicate International*, *Chicago Tribune*, *Red Herring*, the *Los Angeles Times*, and others. hairstyles, slang terms, advertising jingles, pop music sensations, and all else described as popular culture is covered in this 5-vol. reference. Arranged chronologically by decade and by broad topics within each decade, *Bowling, Beatniks, and Bell-Bottoms* focuses solely on the popular culture of the century -- hairstyles, slang terms, television shows, pop music sensations, etc. -- offering more detailed information on trends and fads than any other resource. Written specifically for students in grades 5 through 12, major topics include: products and brands, toys and games, music and dance, holidays, shopping, sports, movements and much more. Also includes approximately 400 photos, a cumulative table of contents, timeline, subject and cumulative general index and trivia sidebars.
